***Beauty, Sublime, Mysticism in Islamic and Occidental Culture (Islamic Philosophy and Occidental Phenomenology in Dialogue)***

A world ever more extensively interlinked is calling out for serving human interests broader and more compelling than those inspiring our technological welfare. The interface between cultures – at the moment especially between the Occident and Islam – presents challenges to mutual understandings and calls for restoring the resources of our human beings forgotten in the struggle of competition and rivalry at the vital spheres of existence. In the evolutionary progress of the living beings the strictly vital concerns, emotions, attributes become sublimed and elevated to the spiritual sphere at which human beings encounter each other and share. Studies presented here bring forth sublimity, generosity, forgiveness, beauty, and are exalting the quest after ciphers and symbols which lead to our sharing the common deepest stream of fraternal reality.
