Uzbek for Beginners is comprehensive language course with recordings for English speakers who are looking for a modern approach to learning Uzbek. It is bilingual (Uzbek-English) textbook with structural methods of teaching language intended for beginners and pre-intermediate learners. The book is organized into 10 units. Each unit is designed to build upon the knowledge you have gained in the previous one. At the end of each unit you will have a blank page for your notes. The units start with an opening dialogue and then notes about the language points or the culture. The units also cover useful words and expressions relevant to the topic of the discussion. The exercises that follow are an essential part of each unit and one can complete them using the answer key right after the exercise section.
