**Beschreibung:**

*Wissenschaftliche Schriftenreihe: Band 5*

Anthology from the year 2012 in the subject Politics - Miscellaneous, language: English, abstract: Preface We are very proud to present on today the following compendium with articles of several junior scientists from Uzbekistan, China and Germany about different economic topics. Mr. Nuriddin Mamajonov from the embassy in Berlin gives a short introduction about Uzbekistan. The articles in the first part are from several scientists from universities in Tashkent and Namangan. The themes varied from the traditional economic and new economic questions to tourism and translation problems. All articles from the authors of China and Germany would be held during the "First international workshop in September 2011 at Qingdao Technological University, School of Management." Prof. Zhao Jinxian from School of Management and me are sure, that this workshop will intimate the connections between the institutions Qingdao Technological University and Hochschule Magdeburg-Stendal and also the relationships between China and Germany. Many thanks to all helpful hands, who have contribute in organizing this mutual project. We intend to held a second workshop in 2012/2013 and we will try to continue the scientific exchange between our both institutions also in some more directions. March 2012 Prof. Dr. Fritz-René Grabau
